4. Safety

4.4 Activating the monitoring and lifesaving system in the swimming pool:

Lifesaving mechanism in case of serious injury or drowning.

4.4.1. The Instructions in case of one operational pool and one lifeguard:

- The lifeguard shall blow three long whistles, as an indication and warning of a serious incident.
- The lifeguard shall warn the swimming pool manager or his representative through the handheld radio.
- The lifeguard shall take the drowned swimmer out of the pool immediately and provide first aid at the edge of the pool (pursuant to the procedures approved by the International life saving federation).
- The manager or his representative shall call an ambulance personnel (Red Crescent Authority) or civil defense and vacate the swimming pool.
- The lifeguard shall provide first aid without stopping until the arrival of the emergency services.

4. Safety

4.4 Activating the monitoring and lifesaving system in the swimming pool:

4.4.2 The Instructions for two lifeguards:

- The lifeguard or coach shall alert the colleagues and attendees by blowing three long whistles and the lifeguard quickly heading directly to rescue the drowned or injured person and provide first aid (pursuant to the procedures approved by the International life saving federation ILS).
- The second lifeguard shall warn the swimming pool manager or his representative immediately via the handheld radio, call the ambulance or civil defense, then provide rescue equipment with the help of the first lifeguard until the arrival of the emergency services.
- The pool manager or his representative shall ask the workers for assistance to vacate the swimming pool.

Note: It is strictly prohibited to transport a drowned or injured person to the hospital in a private car.

4. Safety

4.4 Activating the monitoring and lifesaving system in the swimming pool:

4.4.3 If there are three or more lifeguards:

- The lifeguard or coach shall alert the colleagues and attendees by blowing three long whistles and the lifeguard quickly heading directly to rescue the drowned or injured person and provide first aid (pursuant to the procedures approved by the International life saving federation (ILS).
- The second lifeguard shall provide rescue equipment with the help of the first lifeguard.
- The third lifeguard shall call the civil defense or ambulance and vacate the swimming pool.
- The lifeguards shall provide first aid and assist the drowned person without stopping until the arrival of the emergency services..

Note: It is strictly prohibited to transport a drowned or injured person to the hospital in a private car.

4. Safety

4.4 Activating the monitoring and lifesaving system in the swimming pool:

4.4.4 In the event of a minor injury of a participant (wound or cut, epistaxis, etc.) resulting to a short absence of the lifeguard:

- The first lifeguard shall give first aid and must alert the second lifeguard, coach, or instructor that he has left his position to be covered by the second lifeguard, coach, or instructor.

4.4.5 In the event of a minor injury of a participant or emergency resulting to a prolonged absence of the lifeguard:

- In this case, a coach or an instructor must evacuate his swimmers out of the pool and preform the duties of the absent lifeguard.
- In the event that there are no coaches or instructors in the pool, the second lifeguard must evacuate and close the pool and contact the pool manager to quickly cover his absence and find an alternative lifeguard.

Note: In the event that there are no coaches or instructors in the pool, Do not set a minimum number of lifeguards (one lifeguard) for each swimming pool, always increase the number of lifeguards to cover any emergency absence, facilitate the process of running the lifeguards' work and avoid closing the pool.

4. Safety

4.4 Activating the monitoring and lifesaving system in the swimming pool:

4.4.6 Instructions and specification of responsibilities:

- 4.4.6.1** Place instructions board of the swimming pool opening times in clear location. If there is any change, it must be modified on the board.
- 4.4.6.2** No person shall be allowed to enter the swimming pool without completing the registration procedures.
- 4.4.6.3** lifeguard, coach and instructor shall wear a work uniform to be easily identified by the swimmers.
- 4.4.6.4** At the end of the session, coach and instructor must ensure that all members have left the swimming pool and entered the changing room.
- 4.4.6.5** Coach and instructor must check the number of his group members several times during the session.
- 4.4.6.6** Lifeguards shall be fully responsible for the safety and security of all swimmers.
- 4.4.6.7** The lifeguard must permanently be seated on the lifeguard chair or in clear location that allows him to observe the swimming pool and its surroundings.
- 4.4.6.8** Ensure that all swimmers are out before closing the pool.
- 4.4.6.9** Lifeguards shall not be assigned to any tasks other than monitoring and lifesaving.

4. Safety

4.4 Activating the monitoring and lifesaving system in the swimming pool:

4.4.6 Instructions and specification of responsibilities:

- 4.4.6.10** Lifeguards shall inspect and check the availability of the rescue equipment every day before opening the pool.
- 4.4.6.11** The swimming pool official must be notified immediately if any of the rescue equipment is tampered.
- 4.4.6.12** The lifeguard must not leave his position without informing the staff.
- 4.4.6.13** The maintenance worker or lifeguard must analyze the quality of water every day before opening the pool.

4. Safety

4.5 Upon acceptance, the participant is required to submit a medical examination stating that he is medically fit and the club is held the full responsibility for that.
